

You don't pull out your shirt drawer from the end, then peer down its length and grope. You roll out a drawer, and see all your shirts at once.

Roll Out Conserv-a-file[®] is based on the same concept. The added convenience of retractable doors gives you total visibility, even above eye level.

Which means files can be on side and top space an old end-opening

And Roll Out conventional

Roll Out is a proud to say

After a torture test equivalent to 250 years use, Roll out Conserv-a-file[®] showed no signs of wear.

Delrin
Load
bearing
wheels—
1-13/16"

Caged
precision
ball
bearings—
1-1/4"

Airplane
Control
cables—
7x7

Because these 3 elements combined to form a superior Full Suspension System.*

1. Huge Delrin Load bearing wheels
(Large wheels roll easier than small ones)
2. Caged precision ball bearings. The best bearings used in a file cabinet.
3. Airplane Control cables — Safety factor of eight
4. All these elements completely invisible!
5. Net result; wall to wall filing with push button ease —
Never any lubrication needed.

*patent pending

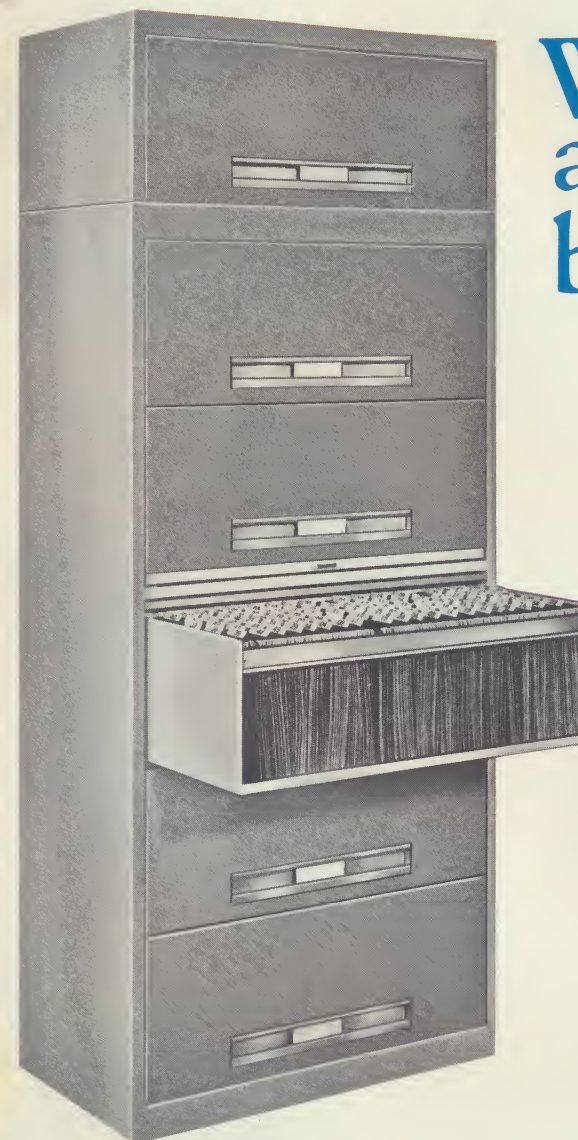

The 3000 Series
Roll Out Conserv-a-file[®]
is one of the three
Lifetime-Guaranteed
filing cabinets made.

We make the other two, too.

They're the best-designed,
best-engineered,
best-constructed
filing cabinets ever made.

That's why...

What's
a
bargain?
